

威廉士急速冷冻柜

能满足连续批量食品生产企业的低温速冻储存

水产加工企业低温速冻储存提供解决方案

Power Plus Blast Chillers

电源为工业用电

威廉士速冻柜适合使用在频繁的运用, 和高效的生产, 智能温度控制器, 操作简单按钮易于识别和选择简单的功能, 共 3 步骤: 1. 选温度、2. 选时间、3. 按启动, 按顺序是: “1、2、3” 就完成全部操作。

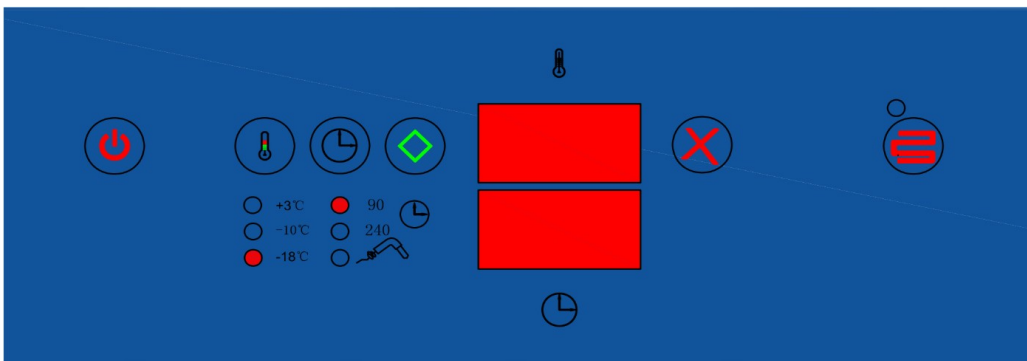

速冻温度有 3 个温度可选择速冻储存不同温度的食物:

1. 急速保鲜温度 +3℃、2. 急速冷藏温度 -10℃、3. 急速冷冻温度 -25℃。

速冻时间有 3 个选项: 1. 90 分钟、2. 240 分钟、3. 中心探针

用于预冷设备的准备, 在放入需要速冻的产品, 选择温度、时间按启动按钮很简单的操作。

当运行周期 90 分钟或 240 分钟结束后 LED 会显示工作完成同时蜂鸣器会发出提示声音。

The supply electricity for industry

Power flow and the frozen cabinet is suitable for use in frequent operation, and high efficiency of production. Simple operation button is easy to identify and choose the simple function, a total of 3 steps: 1. The selected temperature, 2. Select the time, (3) according to launch, order is: "1, 2, 3" can finish all the operation.

Low temperature has three optional quick-frozen food storage of different temperature:

1. Rapid preservation temperature(1) + 3 °C, (2)Rapid refrigeration temperature - 10 °C, (3) the rapid freezing temperature -25°C .

Low frozen time has three options: (1) 90 minutes, (2) 240 minutes (3)center probe

Used in precooling equipment preparation, needs in quick-frozen products, into the choice of temperature, time, press the start button is very simple operation.

3种温度下的冷冻温度可以选择不同温度的冷冻食品储存：(1) 急速降温 +3℃，(2) 急速冷藏 -10℃，(3) 急速冷冻温度- 25℃。冷冻时间有3个选项：(1) 90分钟，(2) 240分钟，(3) 中心探针。柜体内外全部使用304不锈钢材料。

3 kinds of freezing temperatures can choose different temperature of frozen food storage: (1) rapid cold storage +3℃, (2) rapid cooling -10℃, (3) rapid freezing temperature - 25℃. Freezing time has 3 options: (1) 90 minutes, (2) 240 minutes, (3) the central probe, The cabinet and the use of 304 stainless steel material

型号 MODEL	规格 DIMENSION	温度 TEMPERATURE	产量/次 OUTPUT/TIMES	电量 POWER
